Since opening our doors in July 2012, Spay N Save has performed over 44,000 surgeries. As a 501(c)(3) non-profit organization our low-cost, high-quality, high-volume spay/neuter clinic in Seminole County is dedicated to reaching throughout Central Florida to make spaying and neutering your pets and neighborhood strays a possibility for everyone. We are not a full-service vet and do not provide any long-term medical treatment; rather, we are focused on reducing the overpopulation of homeless pets.

#### FIVE STAR REVIEWS FROM GREATNONPROFITS.ORG

*I found a tiny kitten in the road. Spay N Save gave her and me all the new kitten care we needed. They are so kind, friendly and efficient! I'd recommend them to anyone! And please don't forget to donate to their Spay it Forward program, it's an easy way to help get stray animals spayed or neutered.*

*I LOVE Spay N Save!! After the passing of my sweet cat Buddy, I decided I had to make a difference in the lives of stray cats by doing my own TNR program. I could have never taken on this challenge without the help of Spay N Save.*

*THE BEST SPAY/NEUTER CLINIC AROUND. I have two dogs that I have gotten spayed here and if I had more, I would have chosen this clinic for their spay/neuter needs.*

*We had a marvelous experience!! Friendly and very qualified staff which treated our puppies like family. Our pups had very little recovery time, and frankly it was my wife and I who stopped them from running around and playing. I HIGHLY RECOMMEND Spay N Save, they ROCK!*
