

Spay N Save Announces Transport Pilot Program

Need a lift? As a way of continuing our mission of making spay neuter accessible to all, Spay N Save has begun a free transportation pilot program. To start, we have made several trips to rural areas of Lake County where not all residents have the ability to get their dog or cat to a vet for needed services.

Do you know of a community or someone who may need our services? Please call us at the clinic and let's see what we can do to help!
